

TECHNICAL DATA SHEET

WHAT IS GARDENER'S TOUCH GREENHOUSE CLEANER?

A solution called HOCl, or Hypochlorous Acid. It is a non-toxic and non-hazardous product. HOCl is generated using a combination of water, salt, and electricity. This highly-effective solution has a near neutral pH level and is safe for people, plants and pets. When applied, organisms are killed on contact. The water based solution has excellent microbial effects against a broad spectrum of fungi, mold, mildew and pests.

GREAT FOR USE IN:

This HOCl formula is designed for use in greenhouse cultivation areas, footbath, processing and growing equipment, and other facilities. Helps maintain a clean and trouble-free environment without toxic and dangerous chemicals.

DIRECTIONS FOR USE:

De-energize all electrical equipment prior to application. For spray applications, apply Gardener's Touch to all surfaces. Directly spray pests when possible.

Spray surfaces until wet but not to the point of pooling or runoff

Mixing Ratio:

Mix 4oz per gallon of water

Available Packages
55 Gallon Plastic Drum
30 Gallon Plastic Drum
5 Gallon Plastic Bottle
1 Gallon Plastic Bottle
4x1 Gallon Case
12x32oz Quart Case

Tech Specs:

Physical State.....Liquid
Appearance.....Homogeneous clear, liquid
Color.....Colorless
Odor.....Mild chlorine/ ozone odor
Solubility.....Complete in water
Boiling Point.....100* C
Chemical pH.....6.5 +/- 0.5
ORP.....800 +/- 150mV
(Oxidation Reduction Potential)

NON-HAZARDOUS SOLUTION

DISCLAIMER:

The information and recommendations contained herein are based on our research and are believed to be accurate, but no warranty, express or implied, is made or should be inferred. Purchasers should test the products to determine acceptable quality and suitability for their own intended use.
