WHAT IS GARDENER'S TOUCH HYDROPONIC TANK AND LINE CLEAN?

A solution called HOCl, or Hypochlorous Acid. It is a non-toxic and non-hazardous product. HOCl is generated using a combination of water, salt, and electricity. This highly-effective solution has a near neutral pH level and is safe for people, plants and pets. When applied, organisms are killed on contact. The water based solution has excellent microbial effects against a broad spectrum of fungi, mold and mildew.

GREAT FOR USE IN:

This HOCl formula is designed to use in all hydroponic and aeroponic operations to treat and maintain irrigation systems. Gardener's Touch removes mineral and organic buildup allowing your plants to receive maximum nutrients.
